RE: Sustainable Engineering & Design, LLC
Consulting Civil Engineers

To Whom It May Concern:

I am writing this letter to recommend the professional services of Sustainable Engineering & Design, LLC. We have worked with David L. Phillips, P.E. over the past several years on various New and Renovated project types as part of our Design Team. Most recent projects include Palm Pointe K-8 School at Tradition for the School Board of St. Lucie County/FAU and the East County Transportation Complex for the School Board of St. Lucie County.

We have found David L. Phillips, P.E. to be very knowledgeable and thorough in his civil designs, along with always being cost conscious and performing in a timely manner. David is a true team member; always ready to do whatever it takes to make a project successful. He has considerable project experience in various project types ranging from Educational and Governmental in the public sector to Medical, Commercial and Multi-Family in the private sector.

David L. Phillips comes highly recommended without reservation for any upcoming projects that you may be considering his Professional services. We look forward to our continued working relationship with David on future projects.

Please do not hesitate to contact me, if I can be of any further assistance.

Sincerely,

Anthony J. Donadio
