

CITY OF PORT ST. LUCIE

PARKS & RECREATION

.....
"A CITY FOR ALL AGES"

July 31, 2008

To Whom It May Concern:

This letter is provided as a professional recommendation for Sustainable Engineering & Design, LLC.

I have had the pleasure of working with Mr. David Phillips, President, Sustainable Engineering & Design, LLC, on numerous projects over the past seven years. During that time, it has been my experience that Mr. Phillips has consistently provided a high level of service with regard to civil engineering and design. I found him to be knowledgeable, competent and professional at all times. He consistently delivered his services on time and within budget, and his approach to help me understand specific project issues was always appreciated.

Based on my experiences with Mr. Phillips, I would not hesitate to recommend him and his firm to any agency seeking a highly qualified and experienced professional engineering firm.

Sincerely,

Bradley R. Keen, CPRP
Project Manager
