Re: Letter of Recommendation for Sustainable Engineering & Design, LLC.

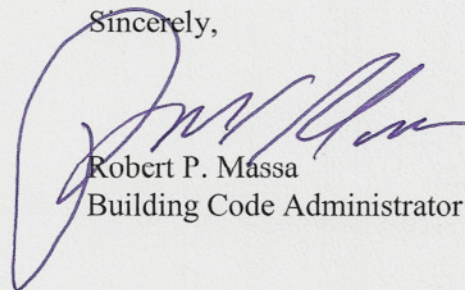

To Whom It May Concern:

From August of 1997 I have been in the Code official for the St. Lucie County School District and have worked with David Phillips on what feels like every project I have been involved with. Mr. Phillips services in the civil engineering field have been exemplary. Mr. Phillips has proved himself to be an eager, dedicated, and respected vendor for this district. In his relationships with colleagues, contractors, facility occupants, consultants and the public, Mr. Phillips has always displayed the highest level of integrity.

In every respect, Mr. Phillips executed his responsibilities with extraordinary professionalism and technical competence and always within time constraints. In my responsibilities to the district it is always a pleasure to have someone working for you who displays such qualities. It is therefore, with utmost confidence in his capabilities and without reservation that I am pleased to endorse Mr. Phillips and his firm. I am certain his dedication, experience and talents will prove an invaluable asset to any organization.

Please do not hesitate to call upon me if I may provide any further information.

Sincerely,

Robert P. Massa  
Building Code Administrator
