Re: Letter of Reference for Sustainable Engineering & Design, LLC

To Whom It May Concern:

This letter of reference is for David Phillips, President of Sustainable Engineering & Design, LLC with whom I have worked with for over the past 10 years on various projects here at the St. Lucie County School Board Facilities Department.

The planning, design and construction administration services that Mr. Phillips has provided for the school district have been completed with a high degree of competency and professionalism. His services have always been provided in a prompt and timely fashion and with an emphasis on the budgetary and time constraints of the various projects. His problem solving abilities are next to none that I have seen in the civil field.

Based on my experience with Mr. Phillips, I would recommend with out hesitation his firm, Sustainable Engineering and Design, to both public and private sector clients seeking civil engineering services for new construction or renovation projects.

Please feel free to call or e-mail me if you have any questions you would like to discuss further. I can be reached at 772-786-6619 or at piperj@stlucie.k12.fl.us.

Sincerely,

Joe Piper
Project Manager
Facilities and Support Services
