**RE: Letter of Recommendation
Professional Engineering Services**

To Whom It May Concern:

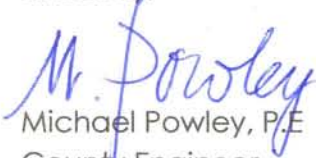

This letter is provided as a professional recommendation for Sustainable Engineering & Design, LLC.

We have worked with David L. Phillips, P.E. on various projects over the past several years. During this time, Mr. Phillips has consistently provided prompt quality civil engineering services along with always being cost-conscious and sensitive to his client's budget needs. His approach to engineering is to help understand the client's program needs, how they can be provided, and then efficiently and economically go straight to a solution.

I would recommend Sustainable Engineering & Design, LLC for your civil engineering services.

Please feel free to contact me at 772-462-1666 should you have any questions regarding the above.

Sincerely,

Michael Powley, P.E.
County Engineer
